## EDUCATION

---

**University of Maryland**, College of Information Studies  
Bachelor of Science in Information Science

August 2023 - Present  
GPA: 3.659

### Relevant Coursework

Python, Java, R

## WORK EXPERIENCE

---

### Circlez.ai

Rishon Letzion, Israel

*Software Engineer Intern*

(March 2023 - August 2023)

- Developed and integrated Python logging tools across 15+ classes to monitor errors and outcomes, reducing debugging time significantly and improving code stability.
- Applied industry standards like GitHub, Agile Development (SCRUM), and CI/CD pipelines in collaborative software projects, enhancing team productivity and workflow efficiency.

### University of Maryland Hillel

College Park, Maryland

*Cashier & Kitchen Supervisor*

(September 2023 - May 2024)

- Supervised daily kitchen operations for UMD Hillel's Kosher meal plan to ensure strict compliance with Kosher dietary laws.
- Managed cash register operations for UMD Hillel, processing 30+ transactions while ensuring accuracy and customer satisfaction.

### Bnei Akiva

Beachwood, Ohio

*Head of fundraising, Youth Counselor, Volunteer*

(September 2019 - May 2023)

- Collaborated with three local businesses to plan and execute three successful fundraising events, raising over \$2,000 to support community programs and outreach initiatives.
- Led and facilitated weekly educational sessions and events for 35+ students across 4th-5th and 7th-8th grade divisions, fostering engagement through interactive learning activities and community-building exercises.

### Issi's Place

University Heights, Ohio

*Cashier & Shift Manager*

(June 2017 - August 2022)

- Processed an average of 95+ daily transactions, including sales, returns, and exchanges, ensuring smooth and efficient cashier operations.
- Collaborated with colleagues to optimize daily workflows and resolve customer inquiries, resulting in improved service efficiency and enhanced customer experience during peak hours.

### Graphic Design

Cleveland, Ohio

*Entrepreneurial Graphic Design*

(June 2019 - December 2022)

- Designed 20+ album covers and promotional materials for musicians and artists, utilizing Adobe Photoshop and Illustrator to create visually compelling artwork that boosted client visibility and engagement.

## ACTIVITIES

---

### The Tamid Club

College Park, Maryland

*Tech Consultant*

(February 2024 - present)

- Assisted in Developing a machine learning model for drone delivery services in parking lots, gauging whether or not a parking spot was vacant, and valid for package delivery or not.
- Developed a Python-based solution using the Pandas package and machine learning algorithms, including linear regression, to calculate RMSE for predicting California housing rates.
- Designed and implemented an application using Python and public APIs while integrating dynamic data retrieval to display random facts based on user input.

### Bnei Akiva Leadership Seminar

Jerusalem, Israel

(August 2022 - May 2023)

- Collaborated with an international cohort of 50+ peers in leadership training, developing skills in community building, event planning, and inclusive leadership to promote group cohesion and inclusivity.
